

ABHISHEK PATHAK

Software Developer | Angular | Full-Stack JavaScript | AI & REST APIs

+91 70693 14800 | apcse131@gmail.com | Godhra, Gujarat, India | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Software Developer with 4+ years of experience specializing in Angular and modern JavaScript applications, with hands-on experience in enterprise dashboards, responsive user interfaces, REST API integration, reusable frontend architecture, and Node.js/Express. Experienced in building real-time application features, data-driven workflows, and AI-powered web experiences. Built an end-to-end Generative AI resume analysis platform and focused on clean code, maintainability, performance, and reliable delivery.

CORE COMPETENCIES

Frontend: Angular, TypeScript, JavaScript, HTML5, CSS3, SCSS, Angular Material, Responsive Design

Backend & Data: Node.js, Express.js, MongoDB, SQL, REST APIs, Third-party API Integration

AI & Real-Time: Generative AI, LLM/API Integration, Prompt Engineering, SignalR, WebSocket, Browser Notifications

Tools & Cloud: Git, GitHub, Docker, Microsoft Azure, Kubernetes, Jenkins, Codex, ChatGPT, Agile/Scrum

PROFESSIONAL EXPERIENCE

SAI (Storewide Active Intelligence) | Angular Developer

Jul 2026 - Present

Remote, India

- Develop and enhance enterprise Angular applications for AI-powered retail intelligence and store operations.
- Developed and worked on key modules including Dashboard, Task Management, Staff Management, Face Management, Store Monitoring, and Store Infrastructure Management.
- Built data-driven dashboards, interactive charts and graphs, filters, reusable Angular components, and responsive interfaces for operational and AI-generated insights.
- Integrated REST APIs across complex frontend workflows, handling dynamic data, payload transformations, filtering, loading states, error handling, and navigation flows.
- Designed and developed the frontend experience for an AI-powered chatbot, including conversational UI, AI summary displays, Save Insights interactions, and reusable components.
- Implemented interfaces for real-time alerts, task monitoring, staff performance, face recognition and incident information, and store monitoring workflows using Angular and TypeScript.

Evision IT Solution Pvt. Ltd. | Senior UX Developer

Feb 2025 - Oct 2025

Gandhinagar, Gujarat, India

- Contributed to Wiseliy BusinessApps across Staffwise HRMS, Workwise task management, Paywise payroll, and Assetwise asset management products.
- Led a 15-member development team by assigning tasks, resolving technical queries, conducting code reviews, supporting releases, and mentoring junior developers.
- Designed and developed Browser and OS-level real-time notification functionality using SignalR for client-facing applications.
- Developed HRMS Attendance Management with Google Maps API, Resignation Management, and configurable dashboard widgets and filters.
- Built Workwise collaboration features including comments, quick notifications, and typing indicators, and integrated Google Docs API for a resume-builder application.

Sunflower Lab | Software Engineer

Oct 2023 - Jun 2024

Vadodara, Gujarat, India

- Led a cross-functional team of one frontend and two backend developers to deliver the 811 Locate Management project.
- Designed and developed responsive Angular SPA features and contributed to Ticket Management and Utility Hit Ticket Management workflows.
- Built Grocery Management functionality for Nomad Bite covering end-to-end grocery order management.
- Implemented a Driver Assignment module to allocate delivery personnel for grocery and food orders.
- Contributed to Zinniax healthcare product modules for Scheduling, Surgery Tracking, and Billing Management.

SmartDocs Inc. | Software Developer

Sep 2021 - May 2023

Jaipur, Rajasthan, India

- Collaborated with a cross-functional team to build Synapse, an NLP-powered chat application serving 20,000+ users.
- Developed Bot Engine capabilities to configure intents, utterances, skills, and bot responses across Microsoft Teams, WhatsApp, Slack, and Google Chat.
- Built reusable Angular components for a configurable web widget with theme personalization and integration settings.
- Designed and implemented a Chrome Extension to integrate web-widget functionality into external websites.
- Integrated dashboard visualizations and developed an Angular-based Bot Builder to visually represent intent flowcharts for configuration and debugging.

Rishabh Software | Full-Stack Web Developer Intern

Jan 2021 - Jul 2021

Vadodara, Gujarat, India

- Developed responsive MEAN-stack web applications using Angular, Node.js, Express.js, and MongoDB.
- Built and integrated REST APIs while gaining hands-on experience across frontend, backend, and database development.
- Worked with reusable UI components, authentication flows, and full-stack development practices during the internship.

FEATURED PROJECT

ResumeIQ - AI-Powered Resume Analyzer | Angular 18, Node.js, Express.js, MongoDB, Groq AI, REST APIs

[Live Demo](#) | [GitHub Repository](#)

- Built ResumeIQ end-to-end as a full-stack AI-powered resume analysis platform using Angular, Node.js/Express, MongoDB, and secure REST API integration.
- Implemented JWT-based authentication and authorization with a secure login flow, protected Angular routes using AuthGuard, and an HTTP Interceptor for attaching and handling authentication tokens with API requests.
- Developed secure PDF/DOCX resume upload and processing workflows, with MongoDB persistence for user data and analysis results.
- Integrated Groq AI for resume analysis, delivering ATS scoring, missing-skill identification, and personalized, actionable improvement suggestions.
- Built a responsive dashboard for resume upload and result visualization and deployed the Angular frontend on Vercel with the Node.js/Express backend on Render.

EDUCATION

Parul University - B.E. in Computer Science and Engineering | 2013 - 2018

Vadodara, Gujarat, India

CERTIFICATIONS

Rishabh Software Internship Certificate (MEAN Stack), Rishabh Software

Jul 2021
